**SCHEDULING ORDER**

This 19<sup>th</sup> day of Sept., 2023, the Court having conducted an initial Rule 16 scheduling and planning conference pursuant to Local Rule 16.2(a), and the parties having determined after discussion that the matter cannot be resolved at this juncture by settlement, voluntary mediation, or binding arbitration;

IT IS ORDERED that:

1. Except with respect to the hearings on claim construction and dispositive and *Daubert* motions, the pretrial orders and pretrial conferences, and the trials themselves, proceedings on the parties' claims, defenses and counterclaims with respect to the patents asserted by Plaintiffs Abbott Diabetes Care Inc. and Abbott Diabetes Care Limited<sup>1</sup> against Defendant DexCom, Inc. in their Complaint (D.I. 1) shall be consolidated with, and follow the same schedule

---

<sup>1</sup> Plaintiffs Abbott Diabetes Care Inc. and Abbott Diabetes Care Limited, and Counterclaim Defendant Abbott Diabetes Care Sales Corp. are referred to collectively as "Abbott." Defendant and Counterclaim Plaintiff DexCom, Inc. is referred to as "DexCom."

as, the parties' claims, defenses and counterclaims with respect to the patents asserted by DexCom in its Counterclaims (D.I. 15).

2. Rule 26(a)(1) Initial Disclosures and E-Discovery Default Standard. Unless otherwise agreed to by the parties, the parties shall make their initial disclosures pursuant to Federal Rule of Civil Procedure 26(a)(1) within 14 days of the date of this Order. If they have not already done so, the parties are to review the Court's Default Standard for Discovery, which is posted at <http://www.ded.uscourts.gov>, and is incorporated herein by reference.

3. Joinder of Other Parties and Amendment of Pleadings. All motions to join other parties, and to amend or supplement the pleadings, shall be filed on or before **August 28, 2024**.

4. Discovery.

a. Fact discovery shall commence on August 17, 2023. Any requests for production, interrogatories, requests for admission, subpoenas, or other discovery requests served earlier than August 17, 2023 shall be deemed to have been served on August 17, 2023.

b. Document Production. Document production shall be substantially complete by **July 25, 2024**.

c. Requests for Admission. A maximum of **50 requests for admission** are permitted for each side. Notwithstanding the foregoing, there shall be no limit on the number of requests for admission for the purpose of authenticating documents.

d. Interrogatories. A maximum of **50 interrogatories**, including contention interrogatories, are permitted for each side.

(1) By no later than August 20, 2024, the parties shall serve any contention interrogatories that have not previously been served, to be counted to the maximum number of permitted interrogatories.

(2) By no later than September 19, 2024, the parties shall provide final responses to any contention interrogatories. Such responses shall identify, by bates number, any documents relied on pursuant to Fed. R. Civ. P. 33(d). Any supplementation thereafter shall be limited to instances where a party has received new factual information that could not reasonably have previously been obtained or analyzed, or otherwise can establish good cause for supplementing.

e. Limitation on Hours for Deposition Discovery from Fact Witnesses.<sup>2</sup> For fact witnesses, each side is limited to a total of **120** hours of taking testimony by deposition upon oral examination. Each deposition will count a minimum of 3 hours towards the time limit for the noticing party. Any questioning by the non-noticing party will be charged against that party for the time on the record. Each side is limited to 7 hours of taking testimony by deposition upon oral examination of any fact witness, provided that this limit may be increased by agreement among the parties or by court order for good cause.<sup>3</sup> The parties will work in good faith to agree on time limits for individual depositions in advance.

f. Location of Depositions. Any party or representative (officer, director, or managing agent) of a party filing a civil action in this district court must ordinarily be required, upon request, to submit to a deposition at a place designated within this district. Exceptions to this general rule may be made by order of the Court. A defendant who becomes a counterclaimant, cross-claimant, or third-party plaintiff shall be considered as having filed an action in this Court

---

<sup>2</sup>

The parties agree to deem document discovery and deposition transcripts provided in C.A. No. 21-977 and C.A. No. 22-605 as though produced in this matter.

<sup>3</sup>

The parties agree that good cause is presumed (rebuttable) when a witness is designated on more than five Rule 30(b)(6) topics, or when a witness is identified in a party's Rule 26(a) initial disclosures as knowledgeable about topics relevant to both Abbott's infringement claims and/or defenses thereto, and DexCom's infringement counterclaims and/or defenses thereto.

for the purpose of this provision. The parties will work in good faith to agree on the location and means for taking depositions.

g. Discovery Cut Off. All fact discovery in this case shall be initiated so that it will be completed on or before **November 22, 2024**. The Court encourages the parties to serve and respond to contention interrogatories early in the case.

h. Disclosure of Expert Testimony. All expert discovery in this case shall be initiated so that it will be completed on or before **May 8, 2025**. Unless otherwise agreed to by the parties, they shall file their initial Federal Rule of Civil Procedure 26(a)(2) disclosures of expert testimony on or before **December 12, 2024**, file a supplemental disclosure to contradict or rebut evidence on the same subject matter identified by another party on or before **January 23, 2025**, and file a further supplemental disclosure to reply on the same subject matter on or before **March 6, 2025**. For expert witnesses, each side is limited to 7 hours of taking testimony by deposition upon oral examination of any such witness, provided that this limit may be increased by agreement among the parties or by court order for good cause.<sup>4</sup> To the extent any objection to expert testimony is made pursuant to the principles announced in *Daubert v. Merrell Dow Pharm., Inc.*, 509 U.S. 579 (1993), it shall be made by motion no later than the deadline for dispositive motions set forth herein, unless otherwise ordered by the Court.

i. Discovery Disputes. Should counsel find they are unable to resolve a discovery dispute, the party seeking the relief shall contact chambers at (302) 573-6001 to schedule a telephone conference. Not less than seventy-two hours prior to the conference, the party seeking

---

<sup>4</sup> The parties agree that good cause is presumed (rebuttable) when an expert addresses more than three unrelated patents asserted by either side on subjects of infringement, noninfringement, validity, and/or invalidity, or if an expert addresses at least one patent asserted by both Abbott in its infringement claims and DexCom in its infringement counterclaims on subjects of infringement, noninfringement, validity, and/or invalidity.

relief shall file with the Court a letter, not to exceed 1,500 words, outlining the issues in dispute and its position on those issues. (The Court does not seek extensive argument or authorities at this point; it seeks simply a statement of the issue to be addressed and a summary of the basis for the party's position on the issue.) Not less than twenty-four hours prior to the conference, any party opposing the application for relief may file a letter, not to exceed 1,500 words, outlining that party's reasons for its opposition. Should the Court find further briefing necessary upon conclusion of the telephone conference, the Court will order it. Disputes over protective orders are to be addressed in the first instance in accordance with this paragraph.

j. Disclosures. Absent agreement among the parties, and approval of the Court:

(1) By **August 17, 2023**, the parties shall identify the accused product(s), including accused methods and systems, and their damages models, as well as the asserted patent(s) that the accused product(s) allegedly infringe(s). The parties shall also produce the file history for each patent they are asserting.

(2) By **November 3, 2023**, the parties shall produce core technical documents relating to their accused product(s), sufficient to show how the accused product(s) work(s), including but not limited to non-publicly available operation manuals, product literature, schematics, and specifications. The parties shall also produce sales figures for their accused products.

(3) By **December 20, 2023**, the parties shall each produce an initial claim chart relating each known accused product to the asserted claims each such product allegedly infringes.

(4) By **January 25, 2024**, the parties shall each produce their initial invalidity contentions for each asserted claim, as well as the known related invalidating references.

(5) By **August 27, 2024**, the parties shall provide final infringement contentions.

(6) By **September 19, 2024**, the parties shall provide final invalidity contentions.

5. Application to Court for Protective Order. The parties agree to adopt a Protective Order that is equivalent to that ordered by the Court in C.A. No. 21-977, to be filed with the Court within fourteen days of entry of this Order.

6. Filings Under Seal. Papers Filed Under Seal. A redacted version of any sealed document shall be filed electronically within seven (7) days of the filing of the sealed document.

Should any party intend to request to seal or redact all or any portion of a transcript of a court proceeding (including a teleconference), such party should expressly note that intent at the start of the court proceeding. Should the party subsequently choose to make a request for sealing or redaction, it must, promptly after the completion of the transcript, file with the Court a motion for sealing/redaction, and include as attachments (1) a copy of the complete transcript highlighted so the Court can easily identify and read the text proposed to be sealed/redacted, and (2) a copy of the proposed redacted/sealed transcript. With its request, the party seeking redactions must demonstrate why there is good cause for the redactions and why disclosure of the redacted material would work a clearly defined and serious injury to the party seeking redaction.

7. Interim Status Report. No later than seven (7) days before the Status Conference of paragraph 8, counsel shall submit a letter to the Court with an interim report on the nature of the matters in issue and the progress of discovery to date.

8. Status Conference. The Court will hold a Rule 16 conference **on July 16, 2024.**

If all parties agree that there is nothing to report, nor anything to add to the interim status report or to this order, they may so notify the Court in writing before the conference is scheduled to occur, and the conference will be taken off the Court's calendar.

9. Tutorial Describing the Technology and Matters in Issue. Unless otherwise ordered by the Court, the parties shall provide the Court, no later than the date on which their opening claim construction briefs are due, tutorials on the technology at issue. In that regard, the parties may separately or jointly submit separate DVDs of not more than 30 minutes with respect to each of: (1) the patents asserted by Abbott in its infringement claims; and (2) the patents asserted by DexCom in its counterclaims. The tutorials should focus on the technology in issue and should not be used to argue claim construction contentions. The parties may choose to file their tutorial(s) under seal, subject to any protective order in effect. Each party may comment, in writing (in no more than 1,750 words per tutorial) on each of the opposing party's tutorials. Any such comment shall be filed no later than the date on which the parties' answering claim construction briefs are due. As to the format selected, the parties should confirm the Court's technical abilities to access the information contained in the tutorial.

10. Case Dispositive Motions.

a. All case dispositive motions, an opening brief, and affidavits, if any, in support of the motion shall be served and filed on or before **July 17, 2025**, with respect to Abbott's infringement claims and associated defenses and counterclaims. All case dispositive motions, an opening brief, and affidavits, if any, in support of the motion shall be served and filed on or before **October 3, 2025**, with respect to Dexcom's infringement claims and associated defenses and counterclaims.

b. Answering briefs shall be served and filed on or before **August 14, 2025**, with respect to Abbott's infringement claims and associated defenses and counterclaims. Answering briefs shall be served and filed on or before **November 17, 2025**, with respect to Dexcom's infringement claims and associated defenses and counterclaims.

Reply briefs shall be served and filed on or before **December 18, 2025**, with respect to Dexcom's infringement claims and associated defenses and counterclaims.

d. No early motions without leave. No case dispositive motion under Rule 56 may be filed more than ten (10) days before the above date without leave of the Court.

e. Word limits combined with *Daubert* motion word limits. Each party is permitted to file as many case dispositive motions as desired provided, however, that each SIDE will be limited to a combined total of 15,000 words for all opening briefs, a combined total of 15,000 words for all answering briefs, and a combined total of 7,500 words for all reply briefs regardless of the number of case dispositive motions that are filed. In the event that a party files, in addition to a case dispositive motion, a *Daubert* motion to exclude or preclude all or any portion of an expert's testimony, the total amount of words permitted for all case dispositive and *Daubert* motions shall be increased to 20,000 words for all opening briefs, 20,000 words for all answering briefs, and 10,000 words for all reply briefs for each SIDE.<sup>5</sup> These word limits apply separately

---

<sup>5</sup> The parties must work together to ensure that the Court receives no more than a total of 100,000 words (i.e., 20,000 + 20,000 + 10,000 words regarding one side's motions, and 20,000 + 20,000 + 10,000 words regarding the other side's motions) of briefing on all case dispositive motions and *Daubert* motions that are covered by this scheduling order and any other scheduling order entered in any related case that is proceeding on a consolidated or coordinated pretrial schedule.
